Enviro Infra Engineers Limited (EIEL) Receives Order for EPC of Sewage Treatment Plants including Reuse of Treated Waste Water

Value of Orders: ₹ 221.26 Crores

The Order marks Strengthening of Enviro Infra Engineers Limited (EIEL) in the Reuse of Waste Water including Tertiary Treatment and Ultrafiltration

New Delhi, July 24, 2025: Enviro Infra Engineers Limited (NSE: EIEL, BSE: 544290), a prominent EPC Player in Water & Waste-Water Treatment across PAN India, has announced a significant step forward in its growth journey by strengthening its foot hold in the Reuse Treatment Technologies including Tertiary Treatment and Ultrafiltration Technologies. The Company has secured two (2) prestigious projects from Bangalore Water Supply and Sewerage Board (BWSSB). The highlights of the Projects are as under:

1. EPC of 20 MLD STP with Tertiary Treatment Facility followed by Ultrafiltration system for 10 MLD, along with Operation & Maintenance thereof for ten years.
2. EPC of 15 MLD STP with Tertiary Treatment Facility followed by Ultrafiltration system for 7.5 MLD, along with Operation & Maintenance thereof for ten years.

Commenting on the development, Mr. Sanjay Jain, Chairman, Enviro Infra Engineers Limited, said: *“We are proud to have secured these prestigious projects from BWSSB, which not only reinforce our technical capabilities in delivering complex wastewater and tertiary treatment infrastructure but also reflect the trust that BWSSB has placed in us. Our focus remains on delivering high-quality, sustainable, and timely solutions that contribute to the nation’s water management and sanitation goals. We are committed to maintaining the highest standards of engineering and execution.”*

With this win, EIEL further strengthens its position as a national player in water and wastewater EPC solutions, aligned with India's long-term environmental goals.

About Enviro Infra Engineers Limited (EIEL):

EIEL is one of the leading EPC Companies in the business of Water and Wastewater Treatment Plants (WWTPs) and Water Supply Scheme Projects (WSSPs) for government authorities/bodies with over 15 years of experience. WWTPs include Sewage Treatment Plants (STPs), Sewerage Schemes (SS) and Common Effluent Treatment Plants (CETPs).

The Company has an in-house team for designing, engineering and construction which makes us self-reliant on all aspects of our business. The teams are supported by third-party consultants and industry experts to ensure compliance and quality standards laid down by the industry and government agencies & departments. We also have our own team for civil construction works thereby reducing dependence on third parties. The scope of our services typically includes design and engineering of the projects, procurement of raw materials, and execution at site with overall project management up to the commissioning of projects. Post commissioning, operations and maintenance of these plants for a certain period of time is generally a part of the award. We have a team of dedicated engineers and personnel focused on operations and maintenance of completed projects.
